93%

Job placement of ATA College Nursing Program for 2022-2023.

84%

Nursing Program graduates within 100% of program length. (2022/2023)

Notice to current and prospective nursing students:

This disclosure statement serves as formal notification that action was taken by The Accreditation Commission for Education in Nursing (ACEN) at its meeting in April 2023. The Board of Commissioners, as a result of the focused visit following a decline in licensure examination pass rates, affirmed continuing accreditation with conditions to the associate nursing program, as the program is in non-compliance with Standard 4 Curriculum and Standard 6 Outcomes.

The substantive change of Southern Technical College – Fort Myers to ATA College – Fort Myers, is currently under review by the ACEN Board. A final decision regarding the substantive change decision will be available only after the Board vote scheduled for April 5, 2024.
