1 LETTER

Dear Nursing Student,

This handbook provides policies and procedures specific to the Practical Nursing Program. You are expected to adhere to all policies in this handbook as well as all policies in the ATA Catalog. In addition, you are expected to adhere to all policies of any clinical facilities in which you are placed. The policies presented in this handbook supplement those presented in the ATA Catalog.

ATA reserves the right to revise any policies presented in this handbook or the ATA Catalog. Policy changes will be provided via announcements to the student population on the student portal. You are encouraged to seek advising from Student Services and ATA administrative personnel if you have any questions about the policies presented in this publication.

ATA is institutionally accredited by the Accrediting Bureau of Health Education Schools (ABHES). Graduates are eligible to sit for the National Council Licensure Examination-Practical Nurse (NCLEX-PN)

Upon successful completion of all required courses and completion of a 120 hour integrated practicum and successful completion of the NCLEX-PN graduates are eligible to seek employment as a Licensed Practical Nurse.

You may obtain information about the Board of Nursing requirements related to nursing programs by contacting:

Ohio Board of Nursing
8995 East Main Street
Reynoldsburg, OH 43068
614-466-3947
<http://www.nursing.ohio.gov>

Please remember the nursing staff is here to support you on your academic journey.
If you need any assistance, feel free to reach out to us.

Best wishes for your academic journey,
ATA Nursing Staff

1 GENERAL INFORMATION

EVALUATION OF THE PROGRAM

The Program Director will provide an evaluation of the overall effectiveness of the training program annually and shall include such elements as: student evaluations, first-time pass rates on the written and manual skills certification exams, student attrition rates, resolution of past student complaints and grievances, and review and revision of program policies. The Program Director can add other criteria in weighing the effectiveness of the evaluation process with subsequent semesters of training. This data will be shared with the administration of ATA as well as with any accrediting or licensing agencies as needed.

ATA ADMINISTRATION

Brent Mills.....	President and CEO
Kelly Dugas.....	Campus Director
Jeremy Wright	Chief Financial Officer
Chad Bertelkamp.....	Vice President of Financial Aid
Ellie Mikel.....	Chief Operations Officer
Kyle Riggs.....	Vice President of Marketing and Admissions
Angela Manzanara.....	Accreditation and Compliance Officer
Gay Pearce BS, RN.....	Corporate Director of Nursing/Quality Assurance Director

1 NURSING PROGRAM VISION, MISSION, AND PHILOSOPHY

VISION

Educate Nurses

MISSION

Thoroughly prepare nursing students to provide holistic and competent care to all patients, present as leaders in the health care arena and serve as catalysts for the advancement of the nursing profession. To educate caring nurses committed to excellence, who will serve the healthcare needs of the community as well as the diverse community in the region.

PHILOSOPHY

ATA believes in providing quality educational opportunities in the field of nursing to all individuals with the passion and desire to become a practical nurse. ATA's Nursing Program will provide a foundation of knowledge that will incorporate the biological, physiological, psychological, and sociological aspects of nursing. Community service is an integral component in the professional nursing experience. This program is committed to providing service to the community, and to the development of the nurse with an appropriate balance of caring and professionalism. Nursing as a science allows for human caring processes that facilitate health and healing. Nursing is a vocation and profession in which the practitioner integrates learning, teaching, leading, caring, communicating, facilitating, evaluating, managing, planning, and professionalism to promote, maintain, and restore quality of health to communities, environment, family and self.

STUDENT LEARNING OUTCOMES

1. Competent Care: Demonstrate systematic clinical decisions according to individualized client needs to improve patient outcomes
2. Cultural Acknowledgement: Inquire about cultural needs when providing care to patients and their family
3. Collaborative Inclusivity: Provide patient care involving patient, family, and ancillary teams
4. Evidence Based Practices: Discuss nursing skills based on current evidenced based research and practices
5. Professional Integrity: Understand laws relating to the nursing profession
6. Technological Patient Management: Demonstrate an understanding of practical current medical technological equipment in patient care

PROGRAM LEARNING OUTCOMES

1. Competent Care: The graduate will execute nursing care within the scope of practice of the nursing discipline
2. Cultural Acknowledgement: The graduate will implement cultural sensitivity when providing nursing care to patient and family
3. Collaborative Inclusivity: Collaborate with clients, families, and interdisciplinary teams in the decision making process of holistic patient care
4. Evidence Based Practices: Incorporate best nursing practices that align with current evidenced based research and proven clinical algorithms
5. Professional Integrity: The graduate will differentiate nursing care that is incongruent with regulatory mandates
6. Technological Patient Management: Graduate will manage patient care utilizing current technological capabilities

1 OUR BELIEFS

THE NURSING FACULTY BELIEVES:

Human beings are unique rational individuals possessing self-worth and dignity and can utilize their potential for self-development and self-improvement and are capable of modifying their environment and their responses to it.

Environment influences the individual's internal responses, beliefs and value system, also includes influences of culture, family, religion and community. Any environmental condition that interferes with man's well-being is a threat when he is no longer able to cope with it sufficiently well. Nursing attempts to provide an environment that promotes the well-being of people.

Health is a dynamic state of wellness and a fundamental right of every human being. Promotion of health and prevention of illness involves patients, families, and communities participating in decisions regarding their health and in evaluating accessibility.

Caring is central to nursing practice and requires the integration of knowledge, skill, and values to provide quality care. A professional caring relationship is based on respect for the harmony of the client and environment.

Client is the recipient of nursing care or services which could be person, family, aggregate, community, or society. Client is often referred to as patient.

Nursing is a caring discipline that requires the integration of knowledge, skills, and values. Integrity in nursing is acting in accordance with an appropriate code of ethics and accepted standards of practice; patients advocate who defends for a vulnerable client. Nursing is an art and a science.

Nursing Process is a vehicle which enables one to meet basic human needs as they exist within the environment. The nurse incorporates psychomotor skills and scientific and social foundations in meeting these needs in the health illness continuum throughout the life span. The Practical Nursing Curriculum emphasizes the need for continued growth in nursing practice.

1 CONCEPTUAL FRAMEWORK

CONCEPTUAL FRAMEWORK

The conceptual/organizational framework of ATA's Pre-licensure Practical Nursing Program is illustrated through the circular strands exemplifying the philosophy and objectives of the Practical Nursing Program. The concepts reflect the significance of the nurse/client relationship. This framework exemplifies the boundless community.

1 PROGRAM OBJECTIVES / TERMINAL GOALS

DIPLOMA PRACTICAL NURSING - OHIO

Objective: This program provides students with classroom and clinical experiences that allow students with the acquisition of knowledge and skills that enable each student to meet the requirements necessary for success as a nurse.

Terminal Goals: Upon completion of this Pre-Licensure Practical Nursing program, the student will be able to apply for licensure and take the National Council Licensure Examination for Practical Nurses (NCLEX-PN). Once licensed, the student will be able to seek employment and provide nursing care as an entry level practical nurse, working under the direction of a physician or registered nurse.

Graduates are prepared to function as professionals in accordance within the scope and standards of practical nursing practice set by the National Association of Practical Nurse Education and Service (NAPNES) and the Ohio Board of Nursing

This program prepares graduates for employment in numerous health care settings. Licensed practical nurses hold positions in hospitals, nursing care facilities, physician offices, community, home health, and employment agencies, outpatient care centers, and in federal, state, and local government service organizations.

THE LPN FULFILLS THE PROFESSIONAL RESPONSIBILITIES OF THE PRACTICAL NURSE BY:

1. Applying the ethical principles underlying the profession.
2. Following legal requirements.
3. Following the policies and procedures of the employing facility.
4. Cooperating and collaborating with all members of the health care team to meet the needs of family-centered nursing care.
5. Assuming accountability for his/her nursing actions
6. Seeking educational opportunities to improve knowledge and skills.
7. Building post-licensure skills to assure and increase continuing competence.

PROGRAM OBJECTIVES / TERMINAL GOALS

End of Program Student Learning Outcomes are achieved by successfully demonstrating competencies in the didactic and clinical setting to independently practice upon graduation. Evaluation is achieved through the following model:

Clinical Learning Outcomes

Didactic Learning Outcomes

Method of Evaluation

Cognitive Application
Benchmark Testing
Clinical Demonstration &
Application

End of Program Student Learning Outcomes

Clinical Learning Outcomes:

CLO 1: Collaborative Inclusivity: Demonstrate the inclusion of clients, families, and interdisciplinary teams in the decision-making process of patient holistic care.

CLO 2: Cultural Acknowledgement: Implement cultural sensitivity when providing care to patients and attending to their family units.

CLO 3: Competent Care: Demonstrate competent clinical decisions based on individualized client needs to improve patient outcomes.

CLO 4: Professional Integrity: Ethically provide nursing care that is congruent with regulatory mandates.

CLO 5: Evidence Based Practices: Make judicious decisions that aligns with current evidenced based research and proven practices.

CLO 6: Technological Patient Management: Manage patient care utilizing current technological capabilities.

Didactic Learning Outcomes:

Competent Care: The student will demonstrate systematic clinical decisions according to individualized client needs to improve patient outcomes.

Cultural Acknowledgement: The student will inquire about cultural needs when providing care to patients and their family

Collaborative Inclusivity: The student will provide patient care involving patient, family, and ancillary teams

Evidenced Based Practices: The student will discuss nursing skills based on current evidenced based research and practices

Professional integrity: The student will understand laws relating to the nursing profession

Technological Patient Management: The student will demonstrate an understanding of practical current medical technological equipment in patient care.

End of Program Student Learning Outcomes:

- 1) **Competent Care:** The graduate will execute nursing care within the scope of practice of the nursing discipline.
- 2) **Cultural Acknowledgement:** The graduate will implement cultural sensitivity when providing nursing care to patient and family
- 3) **Collaborative Inclusivity:** The graduate will collaborate with clients, families, and interdisciplinary teams in the decision-making process of holistic patient care
- 4) **Evidenced Based Practice:** The graduate will incorporate best nursing practices that align with current evidenced based research and proven clinical algorithms
- 5) **Professional Integrity:** The graduate will differentiate nursing care that is incongruent with regulatory mandates
- 6) **Technological Patient Management:** The graduate will demonstrate proficiency with current medical technology

ADMISSIONS

2

2 ADMISSIONS

ACADEMIC CALENDAR AND CLASS SCHEDULE:

Please refer to the course catalog academic calendars. Class schedules are obtained through the student portal.

NURSING PROGRAM HEALTH RECORDS REQUIREMENTS:

All students in the nursing program must have verification of immunizations and a physical exam on file in the Nurse Administrator's office, prior to attending any clinical or skills lab experience.

The following immunizations are requirements of the nursing program:

1. MMR (mumps, measles, rubella): dated within 10 years
2. Varicella (Chicken Pox): dated within 10 years
3. Tdap (adult): dated within 10 years
4. 2-step PPD or TB Gold (Tuberculosis): Five-year chest x-ray or annual renewal is required
5. Hepatitis B (or signed waiver)
6. Influenza Vaccine (annually)

PHYSICIANS RELEASE

In the event of a major illness, pregnancy or orthopedic problem, a physician's release indicating the student can safely continue to give patient care is required. The release must attest to the student's ability to perform the physical activities listed in the "Essential Functional Abilities and Skills for Nursing Students". The student will be denied clinical opportunity if the physicians release form is not submitted.

Cardiopulmonary Resuscitation: Students are to have an American Heart Association Basic Life Support provided Healthcare Provider CPR certificate. The CPR/BLS certificate must remain current for the duration of the nursing program. Recertification is offered at ATA, information can be obtained in the nursing department.

SPECIAL PROGRAM REGULATIONS

Liability Insurance:

Each student must carry liability insurance coverage when he/she begins clinical experience as a nursing student of ATA. The fee for the insurance will be included with your tuition. Students providing nursing care must be under the direct supervision of a nursing instructor. A student's liability insurance is in effect only if the student is providing nursing care as part of the nursing program requirements. If a student chooses to work in a health care agency, he/she is not employed as a nursing student and cannot wear the student uniform or use the initials S.P.N. after the signature. Liability of the student in an employing agency rests with the individual and the agency.

2 ADMISSIONS

Conviction Records:

Successful completion of the PN program does not ensure students will be eligible to become licensed nurses.

The Ohio Board of Nursing's Revised Code requires those applying for a license or certificate issued by the Ohio Board of Nursing (Board) to submit fingerprints for both an FBI (federal) and BCI (civilian) criminal records check completed by the Bureau of Criminal Identification and Investigation (BCI). The Board cannot, by law, complete the processing of your application until the Board receives BOTH reports. Currently, there are eleven offenses that are automatic bars to obtaining a nursing license for applicants who entered a prelicensure nursing education program after June 1, 2003. This means that the Board of Nursing (Board) is prohibited from issuing a license to a person who has pled guilty to, been convicted of, or has a judicial finding of guilt for one of the offenses listed below.

- Aggravated Murder
- Murder
- Voluntary Manslaughter
- Felonious Assault
- Kidnapping
- Rape
- Aggravated Robbery
- Aggravated Burglary
- Sexual Battery
- Gross Sexual Imposition
- Aggravated Arson
- or a substantially similar law of another state.

The Board is also prohibited from issuing a license to a person who is required to register as a sex offender.

*Please refer to the Ohio Board of Nursing website for a full and updated list of all disqualifying offenses.

In addition, the Board may propose to deny an application, or place restrictions on a license granted, for a conviction of, a plea of guilty to, a judicial finding of guilt, a judicial finding of guilt resulting from a plea of no contest to, or a judicial finding of eligibility for intervention in lieu of conviction or pretrial diversion for the following: (1) any felony; (2) a crime involving gross immorality or moral turpitude; (3) a misdemeanor drug law violation; or (4) a misdemeanor in the course of practice. In regard to these four types of offenses, the offenses are not automatically disqualifying. The Board reviews the facts of each case on an individual basis. The offense may or may not result in a proposed action to deny licensure. The Board does not have the authority to make a determination or take action until an application has been filed. If an applicant has a criminal history, the Board conducts a thorough investigation and considers a number of factors, including but not limited to: whether the applicant has made restitution, completed probation and/or otherwise been rehabilitated; the age of the offense; the facts and circumstances underlying the offense; and the total number and pattern of offenses.

Please also be advised that although the Board may grant a license to an applicant who has a criminal offense history, an individual may be restricted from working in certain settings based on his or her criminal history due to federal and state laws, which require criminal records checks prior to employment in certain settings, and which may impose absolute or discretionary bars to employment in certain patient care settings, for example, in facilities or settings involving care provided to older adults or children. See, e.g., Ohio Administrative Code 173-9-07; 3701-60-07; 5123:2-2-02; 5160-45-07.

2 ADMISSIONS

Drug Screening Policy:

ATA complies with the Drug Free School and Communities Act of 1989, Public Law 101-226, which requires that as a condition of receiving funds or any form of federal assistance under any federal program, the institution of higher education must certify that it has adopted and implemented a program to prevent the unlawful possession, use or distribution of illicit drugs and alcohol by its students and employees.

All nursing students will be required to take a nine panel drug screening, at a location of ATA's choosing, prior to acceptance into the nursing program. Students with a positive drug screening will have to adhere to the drug policy as stated in the Course Catalog. A positive drug screening is defined as:

1. Clinical indications of impairment or signs of dependency (Student will be directed to immediately report to a drug testing facility for a drug screening)
2. Unprescribed drugs found in urine
3. Prescribed medication taken in excess of prescription
4. Diluted urine
5. Refusal to urinate or comply with screening policy/procedures
6. Urine sample determined to be out of the appropriate temperature range

Chemical Dependency Policy:

In order to comply with all clinical affiliates, federal and state legislation, any student exhibiting behavior which suggests impairment related to drugs and/or alcohol will be mandated to chemical dependence assessment. ATA will contact a taxi service to transport the student from any clinical site to a testing facility or emergency room (ER). All costs related to drug screenings will be at the expense of the student. The student will have a specified time frame to have the screening conducted. The drug testing results must be received by ATA directly from the testing facility or ER facility.

When ATA determines that a student has a positive drug test, the student will be withdrawn from the clinical course and all concurrent health, nursing, or allied health program. Prior to returning to ATA, the student must reapply, be accepted to the program, have a negative drug test, and provide satisfactory documentation of drug counseling and treatment. The student will assume all costs of expenses.

Positive Drug Screening:

A second positive test is considered final and cannot be appealed. When a student, with a previously positive drug test, is accepted back into the program, he/she will be subjected to unannounced, random drug screenings.

2 ADMISSIONS

GENERAL CAMPUS INFORMATION:

Counseling and Guidance:

The Department of Student Services serves as an academic advisor to students.

Students may also seek out faculty members based on their chosen program of study.

Counseling of a severe/professional nature is referred to appropriate outside listed agencies.

Grievance Procedure:

If a student has any problems or concerns regarding his/her classes or instructors, the student is encouraged to speak with the instructor first. If the problem is not resolved, the student should make an appointment with the PN Director. If the problem is still not resolved, the student should make an appointment with the Campus Director. Every effort should be made by both the student and ATA staff to resolve any complaint issues at the levels indicated above.

ID Badges/Tags:

Badges/tags must be visible at all times for security reasons. Students will not be allowed in the clinical facilities without ATA issued student ID badges. The student must also wear the ID tags/badges when on campus to be allowed in classrooms, computer labs and resource rooms.

Eating/Drinking:

Designated areas will be available for breaks. Students are responsible for removing any materials such as cans, bags, etc. when finished. Eating in classrooms is not permitted. Drinks are allowed in spill proof containers only.

Resource Room:

The Resource Room is open each week, Monday through Friday. Books and flashcards may be checked out for student use. Students should check out all materials at the desk with the Librarian. Book checkouts are for one term, while flashcards can only be checked out for two weeks at a time due to high demand. Materials marked "Reference" may not leave the Resource Room. The Librarian maintains a searchable online catalog of materials that can be checked out so students can see what materials are currently available. This can be found at atalibrary.weebly.com. ATA has loaded appropriate encyclopedias, dictionaries, and word processing programs on computers, and these are available for student use. The school also provides Internet access for other student requirements. ATA subscribes to Gale Virtual Library. The Virtual Library can be accessed from anywhere, and gives students access to a searchable database that contains thousands of peer-reviewed, full-text academic journal articles for student use. For more information regarding campus amenities, please refer to the student catalog.

2 ADMISSIONS

USE OF COPYRIGHTED MATERIALS

Copyright is a protection given to original written materials and works of art. It allows the author or the artist to control the reproduction of her work. As a result, ATA employee(s) may not reproduce written materials or works unless the works are considered within the public domain or meet the criteria established by the Fair Use Act.

Public Domain: Works that fall within the public domain are those that contain common information. Examples include height and weight charts, standard calendars, and the like.

Fair Use Act: Under the Fair Use Act, copyrighted works may be reproduced, for instructional purposes only, without permission, if ALL of the following criteria apply:

- Spontaneity: There is not enough time to obtain copyright permission.
- Single Use: The work is copied one time, i.e. for a class. If the work is to be copied for subsequent Classes, copyright permission must be obtained.
- Length: The portions of the work that may be copied are limited in length.

Paragraphs or a few pages may be copied; whole chapters may not be copied. For works that are not within the public domain or do not meet the parameters of the Fair Use Act, the ATA Education Department will seek copyright permission. Employees are reminded that ATA curricula are the property of and may not be copied or used outside of their employment with ATA.

ACADEMIC POLICIES

3

3 ACADEMIC POLICIES

ESSENTIAL FUNCTIONAL ABILITIES AND SKILLS FOR NURSING STUDENTS

The Practical Nursing Students will have the following abilities/competencies:

1. **Visual:** possess visual acuity, depth perception and peripheral vision adequate with or without corrective lenses to see objects more than 20 feet away, read small print on objects and withdraw medications from small containers.
2. **Auditory:** have hearing ability with or without auditory aids to distinguish faint sounds with variations, understand the normal speaking voice without viewing the speaker's face, hear auditory alarms, emergency signals, and communicate via the telephone.
3. **Tactile:** demonstrate gross motor skills and physical endurance, able to stand and maintain balance for prolonged periods of time, lift, push or pull objects of 75 pounds or more, demonstrate full range of motion of all extremities, move or ambulate without difficulty independently, maneuver in limited spaces, and squeeze with hands.
4. **Communication Skills:** demonstrate fine motor skills with manual dexterity to write with a pen or pencil, type on a computer keyboard, pick up and manipulate small objects with hands, screw on caps, perform actions using two hands simultaneously, and pinch small objects with fingers. Communicate effectively in verbal and written form by speaking clearly and succinctly when explaining treatment procedures or describing patient conditions, implement health teaching, and write legibly.
5. **Critical / Cognitive Thinking:** demonstrate effectively the ability to synthesize knowledge in reading, writing and comprehension of English language, make decisions independently, identify cause-effect relationships; adapt decisions based on new knowledge.
6. **Adaptation:** Function safely under stressful conditions and demonstrate the ability to adapt to ever changing environments.

STUDENT CONDUCT POLICY

- (1) A student shall, in a complete, accurate, and timely manner, report and document nursing assessments or observations, the care provided by the student for the patient, and the patient's response to that care.
- (2) A student shall, in an accurate and timely manner, report to the appropriate practitioner errors in or deviations from the current valid order.
- (3) A student shall not falsify any patient record or any other document prepared or utilized in the course of, or in conjunction with, nursing practice. This includes, but is not limited to, case management documents or reports, time records or reports, and other documents related to billing for nursing services.
- (4) A student shall implement measures to promote a safe environment for each patient.
- (5) A student shall delineate, establish, and maintain professional boundaries with each patient.
- (6) At all times when a student is providing direct nursing care to a patient the student shall:
 - (a) Provide privacy during examination or treatment and in the care of personal or bodily needs; and
 - (b) Treat each patient with courtesy, respect, and with full recognition of dignity and individuality.
- (7) A student shall practice within the appropriate scope of practice

3 ACADEMIC POLICIES

(8) A student shall use universal and standard precautions

(9) A student shall not:

- (a) Engage in behavior that causes or may cause physical, verbal, mental, or emotional abuse to a patient;
- (b) Engage in behavior toward a patient that may reasonably be interpreted as physical, verbal, mental, or emotional abuse.

(10) A student shall not misappropriate a patient's property or:

- (a) Engage in behavior to seek or obtain personal gain at the patient's expense;
- (b) Engage in behavior that may reasonably be interpreted as behavior to seek or obtain personal gain at the patient's expense
- (c) Engage in behavior that constitutes inappropriate involvement in the patient's personal relationships; or
- (d) Engage in behavior that may reasonably be interpreted as inappropriate involvement in the patient's personal relationships.

For the purpose of this paragraph, the patient is always presumed incapable of giving free, full, or informed consent to the behaviors by the student set forth in this paragraph.

(11) A student shall not:

- (a) Engage in sexual conduct with a patient;
- (b) Engage in conduct in the course of practice that may reasonably be interpreted as sexual;
- (c) Engage in any verbal behavior that is seductive or sexually demeaning to a patient;
- (d) Engage in verbal behavior that may reasonably be interpreted as seductive or sexually demeaning to a patient.

For the purpose of this paragraph, the patient is always presumed incapable of giving free, full, or informed consent to sexual activity with the student.

(12) A student shall not, regardless of whether the contact or verbal behavior is consensual, engage with a patient other than the spouse of the student in any of the following:

- (a) Sexual contact
- (b) Verbal behavior that is sexually demeaning to the patient or may be reasonably interpreted by the patient as sexually demeaning.

3 ACADEMIC POLICIES

- (13) A student shall not self-administer or otherwise take into the body any dangerous drug, in any way not in accordance with a legal, valid prescription issued for the student or self-administer or otherwise take into the body any drug that is a schedule I controlled substance.
- (14) A student shall not habitually or excessively use controlled substances, other habit-forming drugs, or alcohol or other chemical substances to an extent that impairs ability to practice.
- (15) A student shall not have impairment of the ability to practice according to acceptable and prevailing standards of safe nursing care because of the use of drugs, alcohol, or other chemical substances.
- (16) A student shall not have impairment of the ability to practice according to acceptable and prevailing standards of safe nursing care because of a physical or mental disability.
- (17) A student shall not assault or cause harm to a patient or deprive a patient of the means to summon assistance.
- (18) A student shall not misappropriate or attempt to misappropriate money or anything of value by intentional misrepresentation or material deception in the course of practice.
- (19) A student shall not have been adjudicated by a probate court of being mentally ill or mentally incompetent, unless restored to competency by the court.
- (20) A student shall not aid and abet a person in that person's practice of nursing without a license, practice as a dialysis technician without a certificate issued by the board, or administration of medications as a medication aide without a certificate issued by the board.
- (21) A student shall not prescribe any drug or device to perform or induce an abortion or otherwise perform or induce an abortion.
- (22) A student shall not assist suicide.
- (23) A student shall not submit or cause to be submitted any false, misleading or deceptive statements, information, or document to the nursing program, its administrators, faculty, teaching assistants, preceptors, or to the board.
- (24) A student shall maintain the confidentiality of patient information. The student shall communicate patient information with other members of the health care team for health care purposes only, shall access patient information only for purposes of patient care or for otherwise fulfilling the student's assigned clinical responsibilities, and shall not disseminate patient information for purposes other than patient care or for otherwise fulfilling the student's assigned clinical responsibilities through social media, texting, emailing or any other form of communication.
- (25) To the maximum extent feasible, identifiable patient health care information shall not be disclosed by a student unless the patient has consented to the disclosure of identifiable patient health care information. A student shall report individually identifiable patient information without written consent in limited circumstances only and in accordance with an authorized law, rule, or other recognized legal authority.
- (26) A student shall not use social media, texting, emailing, or other forms of communication with, or about a patient, for non-health care purposes or for purposes other than fulfilling the student's assigned clinical responsibilities.

3 ACADEMIC POLICIES

NAPNES: NATIONAL ASSOCIATION FOR PRACTICAL NURSE EDUCATION AND SERVICE, INC. CODE OF ETHICS

The Licensed Practical Nurse shall:

1. Consider as a basic obligation the conservation of life and the prevention of disease.
2. Promote and protect the physical, mental, emotional and spiritual health of the patient and his/her family.
3. Fulfill all duties faithfully and efficiently.
4. Function within established legal guidelines.
5. Accept personal responsibility (for his/her acts) and seek to merit the respect and confidence of all members of the health care team.
6. Hold in confidence all matters coming to his/her knowledge, in the practice of his/her profession, and in no way and at no time violate this confidence.
7. Give conscientious service and charge just remuneration.
8. Learn and respect the religious and cultural beliefs of his/her patient and of all people.
- 9) Meet his/her obligation to the patient by keeping abreast of current trends in health care through reading and continuing education.
9. As a citizen of the United States of America, uphold the laws of the land and seek to promote legislation that will meet the health needs of its people.

STUDENT TO STAFF COMMUNICATIONS

Communication relating to academic matters (e.g. absences, grades, class issues) is only communicated through business phones, or Compass. Nursing staff are obligated to respond to all correspondences with 72 hours, excluding weekends.

PROGRAM PROGRESSION POLICY

A student at ATA receives grades on attendance / participation, laboratory and project work, written examinations and/or homework. All final grades are given at the end of each 10-week quarter in all subjects taken by the student.

Ohio students are permitted to fail up to 4 courses with an NPN, PRA or PHA extension prior to their enrollment in the program being terminated.

A student must have successfully passed theory, skills and clinical coursework otherwise he/she must repeat the entire class.

Grades for each course may include Assignments, Lab/Clinical Component, Exams, Final Exam, and Quizzes. Some classes will include a Proctored ATI and an NCLEX Readiness Exam.

3 ACADEMIC POLICIES

GRADE APPEAL

If a student has reason to believe that a grade he/she has received is incorrect, the student should first contact the instructor to resolve it. If satisfactory resolution is not reached, the student may consult the Student Services Office and appeal his or her grade by obtaining a Petition for Grade Appeal form. The completed petition for grade appeal form must be submitted by the student to the Student Services Office within the first week of the subsequent quarter. The grade appeal is reviewed by the Academic Review Committee; the decision of the committee is communicated to the student within five days of submission of the appeal.

PROGRAM COMPLETION POLICY

All Programs

The candidate for graduation must:

1. Have successfully completed all credits or hours and all specific programmatic requirements for the appropriate credential;
2. Earn a cumulative grade point average of at least 2.00 (a "C" average).
3. Meet all requirements for acceptance by ATA including documentation of his/her graduation from high school with a regular diploma or documentation of his/her achievement of high school graduation equivalency; and/or by attestation: (see Admission Requirements).
4. Be current on all indebtedness to ATA.
5. Successfully complete all coursework in the curriculum within 150% of the stated program length as per the catalog.

ATTENDANCE POLICY

Didactic Attendance Policy:

Students are encouraged to arrive to class on time and to remain in class until it is officially dismissed. Any student absent from more than 20% (absences, tardies, leaving class early) of scheduled contact hours for a particular class may be withdrawn from that class with a grade of "W" or "WF". Students absent for more than 20% of the class should contact student services. If any of the 20% is due to mitigating circumstances as listed below, student services may permit a make-up of missed work given proper documentation is received in a timely manner. Mitigating circumstances include: Jury Duty, Military Duty, Illness/Death (immediate family), Court Proceedings (excluding criminal appearances), or other mitigating circumstances as approved by student services.

Clinical/Skills Lab Attendance Policy:

Students are allowed to incur one absence in a clinical or skills lab, not to exceed two absences in any quarter and no more than one per course. If absence occurs, the missed time must be made up. A clinical make up fee will be assessed for makeup hours. Students will be responsible for a \$200 make up fee for each missed clinical. If you miss more than one clinical/skills lab in any one course, you will be withdrawn from that course. **Arriving more than 10 minutes late will result in being dismissed that day from clinical and scheduled for a makeup.** If a student leaves clinical or skills lab before the scheduled end time, the student will have to make up the entire day and pay the clinical make-up fee. Final determination of mitigating circumstances will be determined by student services.

3 ACADEMIC POLICIES

Inclement Weather Campus Closing Notification:

A determination is made 1.5 hours prior to class start time for both day and evening class cancellation. A message is also posted on our website (www.ata.edu). All classes are to follow the school closing or delays with the exception of PRA100. PRA100 is considered an externship and should follow the guidelines of the affiliated agency.

ASSESSMENT TECHNOLOGIES INSTITUTE (ATI):

ATI assessments are online computerized tests and modules designed to academically evaluate students in nursing programs. The purpose of this product is to prepare each student for NCLEX success. ATI learning and testing modules are threaded throughout the program curriculum. Nursing students will be expected to reach proficiency benchmarks in NPN120, NPN130, NPN131, NPN140, NPN152, PHA200N.

ATI Schedule:

Self-Assessment Inventory
Critical Thinking – Entrance & Exit – Proctored
Nurse Logic Tutorial
Learning Systems Tutorial
Fundamentals Assessment – Proctored
Fundamentals Practice assessment – Online Practice A & B
Adult Medical Surgical Assessment – Proctored
Adult Medical Surgical practice assessment – Online Practice A & B
Nursing Care of Children Assessment – Proctored
Nursing Care of Children practice assessment – Online Practice A & B
Maternal Newborn Assessment – Proctored
Maternal Newborn practice assessment – Online Practice A & B
Mental Health Assessment – Proctored
Mental Health practice assessment – Online Practice A & B
Pharmacology Assessment – Proctored
Pharmacology practice assessment – Online Practice A & B
Nursing Management Assessment – Proctored
Nursing Management practice assessment – Online Practice A & B
PN Comprehensive Predictor – Proctored
PN Comprehensive Predictor practice – Online Practice A & B

DRESS CODE (SCHOOL AND CLINICAL)

Student's dress and grooming should be consistent with what is acceptable in the business community. If choice of clothing affects the safety or health of the student or other persons, the school retains the right to effect a change. It is the responsibility of ATA to conform to all safety regulations as required by OSHA.

Any form of dress which is considered contrary to good hygiene, or which is destructive or disruptive in appearance and detrimental to the purpose or conduct of the school will not be permitted. Tube tops, tank tops, halters, bare midriffs, muscle shirts or fish net shirts, short shorts are not to be worn in the school; clothing with obscene or offensive questionable printing will not be permitted.

3 ACADEMIC POLICIES

Clinical Experience Dress Code:

Male: Neat, clean, ironed uniform shirt and pants with identifying name/photo ID badge over left breast pocket. (Uniform designated by the program.)

Female: Neat, clean, ironed uniform. A dress uniform must be of regulation length at the knees, with identifying name/photo ID badge on left side of uniform. (Uniform designated by the program.)

All Students: Uniforms may have white under shirts only (no visible logos, no designs in shirt, clean). No undershirt can reach longer than the uniform top.

While in uniform the student must always have a watch with second hand, a pen, note pad, bandage scissors, blood pressure cuff, stethoscope, penlight and name/photo ID badge. (Stethoscope covers are not allowed). The uniform must be worn to and from the facility. No sweater coats worn under or on top of the uniform shirt.

Wear your uniform with pride and dignity befitting your profession, remembering it identifies you as a student of ATA and your appearance reflects you as a professional.

No sweaters, hoodies, or jackets are allowed in the clinical units. You may choose to purchase an approved scrub jacket that matches your uniform.

Footwear: White or black, comfortable leather or simulated leather shoes with a closed heel is recommended, neatly polished, shoelaces clean if applicable (no clogs, sandals or canvas shoes.) Your feet must be completely covered.

Socks and Hose: Male: solid white socks; Female: white, clean, free of runs hosiery, and/or white socks (no colors in socks).

Hair: Must be worn away from the face and off the collar in a neat orderly fashion prevents transfer of microorganisms and contamination. Color of hair must be professional and non-distracting. No bright tones allowed.

Male: Beards and mustaches must be neat, trimmed.

Females: Extreme hairstyles are to be avoided; no hair ribbons or bows are to be worn.

Make-up: Must be moderate and in good taste. No false eyelashes.

Jewelry: None except watch and plain wedding band, small, pierced post earrings of silver, gold, or pearl, one per earlobes only. Visible body piercing (eyebrow, tongue, etc.) or tattoos are not allowed. Any visible tattoo must be covered with a band-aid or makeup. Single-hole ear gauges are not to exceed 1/4mm, and gauge plugs must be applied at all times.

Nails: Must be short (below fingertips) and clean with no colored polish or artificial nails (not permitted in the healthcare facilities).

Personal Hygiene: The student is expected to be well groomed and free of offensive odors. Perfume or aftershave should never be worn in the clinical area as odors cannot be tolerated by some ill patients. Smoking while in uniform or previous to client contact is unacceptable. No odor of smoke can be tolerated.

3 ACADEMIC POLICIES

Name/Photo ID Badges: Students are required to wear their ATA name/photo ID badges at all times in the clinical facility. Some facilities may require a facility issued Student Name/Photo ID Badge. These must be worn with the ATA badge and returned at the conclusion of the clinical assignment. Students may wear ID badges and present themselves as nursing students only during class times and under the direct supervision of an instructor.

Cell Phone Policy: Cell phones are not permitted to be brought into clinical sites. Any student found with a cell phone at the clinical site will be dismissed for the day, resulting in an absence. All missed clinical hours will be required to be made up and a fee will be assessed based on hours missed.

Students should advise their families, childcare providers, etc., of their schedules so that they can be contacted during non-class or non-clinical times. The cellular phone number of each clinical instructor is provided for emergency contact only.

Students found to be in non-compliance with the above code will be dismissed for the day and incur an absence. Clinical hours must be made up. See PN Director for instructions. Additional sanctions will apply up to possible dismissal from the program.

Two violations of dress code can result in a clinical failure if within the same quarter or if a repetitive pattern exists (3 or more occurrences).

Student Progression Evaluation

Each student will be advised by an instructor anytime they receive a testing score below 80% in all nursing courses. The purpose of the advisement is to make the student aware of his/her academic achievement, provide the student with ample time for improvement and academic guidance for success. Grades are to be posted within a week of the students submitting course work.

THEORY/CLASSROOM/DIDACTIC POLICY

Regular class attendance and punctuality are expected in all classrooms. Students shall assume responsibility for regular attendance; completion of all assignments; completion of all examinations; and completion of required skills and clinical time.

The following are specific to nursing theory class, clinical/classroom, and laboratories. Refer to your course syllabi for expectations.

Classroom Expectations

1. Read, understand, and adhere to all course policies and schedules.
2. Abide by all policies in course catalog and class syllabi
3. Complete all required coursework as outlined per course syllabi.
4. Arrive on time and prepared for class and remain in class for the entire period.
5. Give full attention and participation to the class activities.
6. Avoid any behavior that may disrupt other students' learning.
7. Demonstrate respect in expressing opinions and listening to others.
8. Notify the instructor (outside of class) regarding problems with any of the above regulations or about situations that interfere with learning.

3 ACADEMIC POLICIES

CLINICAL POLICY:

Clinical education is a mandatory component of the program. Due to accreditation requirements of the clinical education centers, students will be required to obtain a criminal background check and undergo drug testing prior to acceptance to the clinical assignment. Any student who fails acceptance to the clinical assignment will be unable to complete the program. If a student is denied acceptance at a specific clinical site, every effort will be made to place the student elsewhere. If no acceptable/available site is found, the student will be unable to complete the program.

Students may be assigned to clinical facilities other than those in the immediate area. Transportation to and from any clinical setting is the responsibility of the student. Staff is prohibited from transporting students.

All students must attend orientation for each clinical course. Every facility requires an orientation for students. This orientation is only provided at scheduled dates and times and cannot be rescheduled or conducted more than once. Any student who does not attend orientation will immediately fail the clinical assigned. The only exception is for a student who had previously attended an orientation with the same facility and was returning due to extenuating circumstances which must be documented and approved per the PN Director. Those hours missed will still be required to be made-up. There is no make-up for missing clinical orientation.

Faculty to Student Ratio

The program's goal is to provide a safe clinical experience for the clients cared for at the partner clinical sites and the students in the program. To that end, the faculty to student ratio will not exceed 1:10 when students are directly caring for residents/clients.

Facility Policy

For a hospital setting, indirect supervision may occur only if there is direct supervision by an assigned clinical preceptor, a supervising program faculty member is available by telephone, and such arrangement is approved by the clinical facility.

3 ACADEMIC POLICIES

CLINICAL AND SKILLS LAB GUIDELINES

1. Report to the clinical instructor when arriving and leaving the clinical area.
2. Call the clinical instructor one hour before the time of the clinical experience if absence is necessary.
3. No texting or emailing is permitted. Contact must be with the instructor assigned for the clinical only.
4. Follow and abide by the policies and procedures of the clinical facility where assigned.
5. Follow and abide by the confidentiality statement
6. Be able to participate in clinical assignments during day or evening hours as clinical space is made available (students will be given ample warning of a change in the times).
7. Be available between 6:30am and 11:00pm Monday–Saturday.
8. Any student who misses skills check-off will be assessed a penalty of one attempt and only have two attempts to complete all skills assigned for that check-off day.
9. Failure to successfully pass skills or a skill will result in the inability to perform in the clinical setting (including instructor presence) this will reflect in the clinical evaluation.
10. If a student is not able to correct a skill's deficit at the scheduled remediation they may fail the course.
11. Students are to leave the clinical premises upon the dismissal of the class.

The clinical instructor has the right to dismiss a student from the clinical or skills lab area for lack of professional judgment, unpreparedness for clinical experience or lab, evidence of physical or mental health impairments that prohibits provision of safe care or if the student exhibits unprofessional behavior in the clinical site with anyone and if the student is not in proper uniform of the school or lacking evidence of proper identification badge. In cases of physical or mental health impairment, the student may have to find an alternative method of transportation to destination (e.g. cab, ambulance, family member).

The school may require students who miss lab or clinical due to illness to present a physician's statement upon their return to school. Statements must be from the physician stating the student can perform clinical expectations without limitations.

In the clinical area the following procedures are for all oral and written materials related to assigned patients in the clinical facility: Students are responsible for maintaining strict confidentiality of patient information. A breach will result in disciplinary action and possible dismissal from the nursing program. Patient confidentiality includes oral and written communication about the patient. It also includes electronic documentation systems utilized by the hospitals. The Health Insurance Portability and Accountability Act (HIPAA) is a Federal Law that prohibits unauthorized disclosure of private patient information. HIPAA provides both civil and criminal penalties for violation that can range up to fines of \$250,000 and 10 years in prison.

1. Remove names, initials, DOB, or other data that identifies an individual patient from all written documents related to patient assignments.
2. No photocopies of the patient record are ever to be made by nursing students.
3. Handwritten notes for post conference or preparation for patient care cannot have names, initials, DOB, social security number, address or telephone numbers listed.
4. Violation of patient confidence will result in permanent dismissal from the program.

3 ACADEMIC POLICIES

PATIENT/CLIENT RIGHTS

The patients/clients have a right to safe and quality nursing care and that right is protected by the Board of Nursing and governing agencies. Behavior by a student that threatens the health or safety of the patient is a breach of this ethical responsibility and may result in dismissal from the program.

UNIVERSAL BLOOD AND BODY SUBSTANCE PRECAUTIONS:

An Exposure Incident is Described As: Contact with blood, body fluids or other potentially infectious material by splattering onto your eyes, mouth, mucous membranes, or non-intact skin. All sticks from a used needle or used sharp object also qualify as an exposure.

Generally accepted standards to assure protection of health care workers include: Routine use of appropriate barrier precautions to prevent skin and mucous membrane exposure when in contact with blood or other body fluids:

1. Wearing gloves when:
 - a. Touching blood and body fluids; mucous membranes, or non-intact skin
 - b. Handling items or surfaces soiled with blood or body fluids
 - c. Performing venipuncture and other vascular procedures
2. Applying mask and eye protection for procedures likely to result in splashing or spraying of blood or body fluids about the face.
3. The use of a gown/apron during procedures likely to soil clothing; 4) The use of disposable resuscitation equipment.
4. Thorough and immediate hand washing after:
 - a. Patient care
 - b. Removing gloves
 - c. Contamination with blood/body fluids
5. Implementation of precautions to prevent injuries caused by needles, scalpels or other sharp objects such as:
 - a. Not recapping needles
 - b. Not bending or breaking a needle by hand
 - c. Disposing needles, scalpels, and sharps in appropriate containers
6. Use of needless systems whenever possible
7. Avoiding direct patient care or handling of patient care equipment if a fresh, open or weeping lesion is present on the health care worker.

3 ACADEMIC POLICIES

GENERAL GUIDELINES FOR PRACTICAL NURSING STUDENTS

In the event of an accidental exposure, the student should contact the nursing instructor immediately and then begin a thorough washing of the area involved. The instructor will contact the facility designee and an incident report will be filed. The facility/school's accidental exposure procedure will be initiated. Post exposure treatment should be initiated within 1–2 hours after exposure. Therefore, it is important to immediately report to the Nursing Instructor or the nearest provider of care. All exposures must be documented and reported to the clinical facility and to ATA's student services.

Students are responsible for acquainting themselves with each clinical affiliate's exposure follow-up policy. This will be covered in orientation to the clinical facility and with the facility's student handbook.

Policies of the clinical affiliate must be followed. All exposures must be reported immediately to the responsible clinical faculty. All exposures must be reported to the department and the appropriate office at the clinical site. Neither the clinical agency nor ATA will be responsible for costs. The student is responsible for all medical costs. This includes costs of evaluation and treatment for the student and tests for documentation of the source. Students should check with their insurance provider regarding coverage.

EPIDEMIC EXPOSURE PLAN

Objectives:

1. Protect the students, staff and faculty wellbeing
2. Maintain compliance with CDC, Board of Health, and affiliating organizations
3. Facilitate student success

The following protocol shall be instituted at ATA for all national, regional and local epidemic outbreaks:

1. Traveling students must have entered the US by all legal processes and protocol. 2) Students must provide proof of date returned to the US
2. Students must have received and provide proof of all recommended and required immunizations upon return to the US
3. Students must adhere to and provide evidence of following prevention recommendations or requirements of the CDC, State Board of Health and affiliating agencies (e.g. clinical sites).
4. Students must provide documentation that he/she has been evaluated by a certified physician.
5. A release form must be electronically submitted to the school by a certified physician.
6. Students may not return to school with any signs or symptoms of the epidemic infection
7. Students may not return to school sooner than 10 days past the incubation stages of the epidemic infection, regardless of provided documentation.
8. Student is required to inform school of possible exposure to infection.

ATA holds the right to alter, update and implement new processes to this plan as necessary.

3 ACADEMIC POLICIES

Fees

Students attending ATA will be responsible for certain fees, as applicable:

Registration Fee: \$50 due upon enrollment

Supplies: \$50(Estimated). Requires purchase of leather shoes and a wristwatch with a second hand

Physical Exam and Required Immunizations: Cost varies depending on insurance and provider

CPR: cost varies

Student Participation in Program Development, Implementation, and Governance:

ATA encourages students to actively participate in programmatic governance through end of course surveys, graduate surveys and student satisfaction surveys.

Faculty Participation in Program Development of Practices and Policies:

Faculty meetings are held quarterly and faculty feedback is solicited in order to continuously improve the program.

Meeting minutes are recorded and sent to all nursing faculty members, including the program administration.
